

MSD Blaster Mitsubishi/Neon Coil Pack PN 8229 and PN 8239

IMPORTANT: Read Instructions before attempting the installation.

Parts Included:

1 - Blaster Mitsubishi Coil

WARNING: During installation, disconnect the battery cables. When disconnecting the battery, always remove the Negative cable first and install it last.

The MSD Blaster Mitsubishi Coil is designed as a replacement coil and produces a high voltage spark. To get even more ignition performance, install an MSD DIS-2 Ignition Control, PN 6211.

MSD offers two 4-tower coils that are performance replacements for a variety of years and vehicles including Mitsubishis, Neons and others. The only difference between the two coils is the connector and you need to ensure that you have the correct coil for your application. Figure 1 shows the difference between the two.

Figure 1 The difference between the PN 8229 and 8239.

Note: If you require the coil with round terminals but have the flat blade coil, an Adapter can be ordered from Mopar Dealers as PN M04897087AA.

WARNING: High Voltage is present on the coil terminals. DO NOT touch the coil terminals or tower when the engine is cranking or running.

1. Disconnect the stock coil connector and note the position of the plug wires before removing the wires.
2. Remove the four mounting bolts and remove coil.
3. Install the new MSD Mitsubishi Coil and retaining screws.
4. Plug in the wiring harness and connect the coil wires.

Figure 2 Typical Installation with an MSD DIS-2 Ignition.

Service

In case of malfunction, this MSD component will be repaired free of charge according to the terms of the warranty. When returning MSD components for service, Proof of Purchase must be supplied for warranty verification. After the warranty period has expired, repair service is charged based on a minimum and maximum charge.

Send the unit prepaid with proof of purchase to the attention of: **Customer Service Department, Autotronic Controls Corporation, 12120 Esther Lama, Suite 114, El Paso, Texas 79936.**

When returning the unit for repair, leave all wires at the length in which you have them installed. Be sure to include a detailed account of any problems experienced, and what components and accessories are installed on the vehicle.

The repaired unit will be returned as soon as possible after receipt, COD for any charges. (Ground shipping is covered by warranty). All units are returned regular UPS unless otherwise noted. For more information, call the MSD Customer Service Line (915) 855-7123. MSD technicians are available from 8:00 a.m. to 5:00 p.m. Monday - Friday (mountain time).

Limited Warranty

Autotronic Controls Corporation warrants MSD Ignition products to be free from defects in material and workmanship under normal use and if properly installed for a period of one year from date of purchase. If found to be defective as mentioned above, it will be replaced or repaired if returned prepaid along with proof of date of purchase. This shall constitute the sole remedy of the purchaser and the sole liability of Autotronic Controls Corporation. To the extent permitted by law, the foregoing is exclusive and in lieu of all other warranties or representations whether expressed or implied, including any implied warranty of merchantability or fitness. In no event shall Autotronic Controls Corporation be liable for special or consequential damages.
