# Adjustable Low RPM Module PN 8677

### **Parts Included:**

1 - Adjustable Low Module

1 - Small Screw Driver

This Adjustable Low RPM Module is designed to be used with any of the MSD Rev Control components or accessories that use the standard white MSD RPM Modules. It cannot be used on the MSD Engine Governor, PN 8725.

**Note:** Solid core spark plug wires cannot be used with an MSD Ignition Control or MSD Timing and RPM Accessories.

#### **OPERATION**

The Adjustable Module has a screw in its side that controls the rpm amount. The range of limit is from about 1,000 – 3,000 rpm, depending on the application. One turn is roughly equal to 100 rpm. The Module is set at the factory with the adjusting screw turned all the way in which is the highest rpm.

**Note:** The adjusting screw is a multi-turn pot. This means that it will still turn even when the minimum or maximum rpm is reached.

The best way to set the desired rpm is with an MSD Ignition Tester, PN 8998. The Tester will simulate the ignition running so the Module can be set without running the engine. If a Tester is not available, run the engine and set the rpm using a tachometer.

**WARNING:** High voltage is present on the coil terminals. Do not touch the coil terminals when the engine is cranking or running.

TECH NOTES

#### **Service**

In case of malfunction, this MSD component will be repaired free of charge according to the terms of the warranty. When returning MSD components for service, **Proof of Purchase** must be supplied for warranty verification. After the warranty period has expired, repair service is charged based on a minimum and maximum charge.

**All returns must have a Return Material Authorization (RMA) number** issued to them before being returned. To obtain an RMA number please contact MSD Customer Service at 1 (888) MSD-7859 or visit our website at www.msdignition.com/rma to automatically obtain a number and shipping information.

When returning the unit for repair, leave all wires at the length in which you have them installed. Be sure to include a detailed account of any problems experienced, and what components and accessories are installed on the vehicle.

The repaired unit will be returned as soon as possible after receipt. (Ground shipping is covered by warranty). All units are returned regular UPS unless otherwise noted. For more information, call MSD Ignition at (915) 855-7123. MSD technicians are available from 7:00 a.m. to 6:00 p.m. Monday - Friday (mountain time).

## **Limited Warranty**

MSD IGNITION warrants MSD Ignition products to be free from defects in material and workmanship under normal use and if properly installed for a period of one year from date of purchase. If found to be defective as mentioned above, it will be replaced or repaired if returned prepaid along with proof of date of purchase. This shall constitute the sole remedy of the purchaser and the sole liability of MSD Ignition. To the extent permitted by law, the foregoing is exclusive and in lieu of all other warranties or representations whether expressed or implied, including any implied warranty of merchantability or fitness. In no event shall MSD Ignition be liable for special or consequential damages.
