

# MSD IGNITION™ INSTALLATION INSTRUCTIONS

## Tach Adapter PN 8910

Some tachometers or factory fuel injection systems may not interface with an MSD Ignition Control. The PN 8910 is designed to correct this problem by producing a signal similar to the factory setup for these applications. The PN 8910 will convert the trigger signal into a signal the factory tachometer or fuel injection recognizes.

### INSTALLATION

1. Mount the Tach Adapter in a location away from direct engine heat making sure the wires reach the MSD unit and the coil.
2. Splice the White wire from the PN 8910 into the MSD's White (trigger) wire.
3. Splice the Red wire from the PN 8910 into the MSD's Red (switched 12 volts) wire.

Figure 1 Wiring the Tach Adapter.

# MSD IGNITION™ INSTALLATION INSTRUCTIONS

Some tachometers may also require the supplied Diode to be installed inline of the White MSD wire. Install the Diode connector as shown below.

Figure 2 Wiring With the Diode Assembly.

## Service

In case of malfunction, this MSD component will be repaired free of charge according to the terms of the warranty. When returning MSD components for service, Proof of Purchase must be supplied for warranty verification. After the warranty period has expired, repair service is charged based on a minimum and maximum charge.

Send the unit prepaid with proof of purchase to the attention of: **Customer Service Department, Autotronic Controls Corporation, 12120 Esther Lama, Suite 114, El Paso, Texas 79936.**

When returning the unit for repair, leave all wires at the length in which you have them installed. Cutting wires close to the unit will void your warranty. Be sure to include a detailed account of any problems experienced, and what components and accessories are installed on the vehicle.

The repaired unit will be returned as soon as possible after receipt, COD for any charges. For more information, call the MSD Customer Service Line (915) 855-7123. MSD technicians are available from 8:00 a.m. to 5:00 p.m. Monday - Friday (mountain time).

## Limited Warranty

Autotronic Controls Corporation warrants MSD Ignition products to be free from defects in material and workmanship under normal use and if properly installed for a period of one year from date of purchase. If found to be defective as mentioned above, it will be replaced or repaired if returned prepaid along with proof of date of purchase. This shall constitute the sole remedy of the purchaser and the sole liability of Autotronic Controls Corporation. To the extent permitted by law, the foregoing is exclusive and in lieu of all other warranties or representations whether expressed or implied, including any implied warranty of merchantability or fitness. In no event shall Autotronic Controls Corporation be liable for special or consequential damages.
