

500 THRUSTER SERIES IN-TANK FUEL PUMP

ACCEL 500 Series In-Tank electric High Flow fuel pump designed to fit directly into most popular EFI applications. Great for EFI Conversion and Upgrades. This pump is designed for applications requiring more fuel flow while utilizing the factory O.E. lines and mounting brackets.

- Flows 500 lb/hr - @ 43.5 PSI
- Flows 450 lb/hr - @ 60 PSI
- Supports 900 HP on a naturally aspirated application
- Supports 700HP on an application with a power adder
- Turbine pump mechanism for increased durability
- Can be used in pulse modulated applications
- Direct replacement into most EFI applications
- Lightweight Design
- Includes filter sock
- For in-tank use only
- Can be used in Carbureted or EFI applications depending on return style regulator used

500 GM In-Tank Elec Pump	75169
500 Ford In-Tank Elec Pump.....	75340
500 In-Tank Elec Pump.....	75341
500 In-Tank Elec Pump.....	75342
